This is the theme of the **2012 Global Youth Video Competition** organised by the Organisation for Economic Co-operation and Development (OECD).

So what is the big issue in education and skills today?

- Learning the right skills to get a job,
- Bridging the 'digital divide',
- Tackling inequality in access to education and training,
- Inspiring creativity and innovation,
- ... or something else?

Participants of 18 to 25 years old are invited to make a short video (no more than 3 minutes) on the theme of Education and Skills and submit it to OECD till 31 March 2012. The 3 winners will be announced on 16 April 2012 and will get as prize an all expenses-paid trip to Paris, France to attend the OECD Forum on 22-24 May 2012.
